Town Plaza – where creativity knows no limits!

In 2016, a new Town Plaza will be built. Here comes the exciting part: a new amphitheatre and a heritage corner will be constructed, along with food and beverage outlets within the town plaza.

The amphitheatre is linked between Bedok Mall and the new Bedok Interchange Hawker Centre. Residents can look forward to a slew of exciting community activities and performances all year round! Engaging your mind and heart, these activities will ensure life will never be mundane again. To top it off, there will be a variety of food options to whet your appetite too.

TAPPING INTO the Rhythm of Lunar New Year

Whenever *Lo Hei Yu Sheng* (prosperous raw fish salad) and mandarin oranges are spotted, we know for sure Lunar New Year has arrived. Over the years, various races celebrated their festivals with one another. Lunar New Year was no exception. At East Coast-Fengshan, residents had a good time together regardless of race. The God of Wealth was seen handing out gifts, much to the delight of residents. There were also song and dance performances to entertain the residents. Members of Parliament joined in the fun. May prosperity, good health and happiness shower upon us in the Year of the Monkey!

iMakanShare

East Coast-Fengshan is well known for being a foodie's paradise. In fact, the rich diversity of local cuisines is phenomenal. This can be traced to our multicultural and multiracial heritage. Over the years, many food stalls have stood the test of time and competition. We believe they are definitely worth a mention. In your neighbourhood, what is the must-have food once you return from a trip? Which food stall do you visit most of the time? In this issue, we invite residents to share with us their most popular food (Hokkien Mee, Chicken Rice, Popiah etc.) in their estates. Based on the type of food that is shared, we will then carry out a poll on Facebook. The top three stalls of the various food categories will then be featured in upcoming issues.

Email your submission to ectcnet@ectc.org.sg with the subject line 'iMakanShare'. The latest date of submission for the 'iMakanShare' poll is 30 June 2016.

Going Green Using Energy-Efficient Lighting

The Town Council has embarked on a green initiative to use more energy efficient lighting. Light Emitting Diode (LED) luminaires are quietly revolutionising the way HDB flats, void decks and multi-storey car parks (MSCPs) are illuminated. LED luminaires are energy-efficient, reducing energy consumption by 65%. Electronic timers and sensors further reduce energy consumption by regulating the brightness according to time periods and human traffic respectively. LED is also more durable and environmental-friendly. To date, 318 HDB blocks and 29 multi-storey car parks (MSCPs) have been installed with LED lightings.
