BEDOK CARES

More than 1,000 residents turned up at the Community Park behind Blk 15, Bedok South Road to celebrate Bedok CARES Day on 24 November 2018. Since 2011, Bedok GROs started Bedok CARES and continues building a community to better support its ageing residents and their families to age and live well through the 3Cs – “Care for Yourself, Care for Caregiver, Care for Each Other”. Seniors are encouraged to “Know their Health” by attending regular health screenings, health coaching and functional screenings organised by Bedok GROs. A myriad of activities is also organised regularly for residents to maintain an Active Body (physical wellness exercises such as Stretch Band Exercises, monthly Brisk Walks and weekly Zumba sessions), a Healthy Diet (healthy cooking demonstrations) and Healthy Mind (mental wellness programmes such as weekly Rummy-O sessions and health talks).

Bedok GROs set up three Activity Zones, which showcased Bedok CARES' mission of building Bedok into One Bedok, One Smart Nation, One Caring Community. Residents had hands-on preview of a series of digital programmes such as Digital Clinics and Seniors in Smart Nation courses. Available at both the CC and RCs in 2019, these will enable seamless communication with their family and friends. Other fringe activities at the Bedok CARES Day event included mental wellness game try-outs, fitness workout demonstrations and Wii Sports try-outs for seniors.

3 Ways to Improve Your Online Job Search

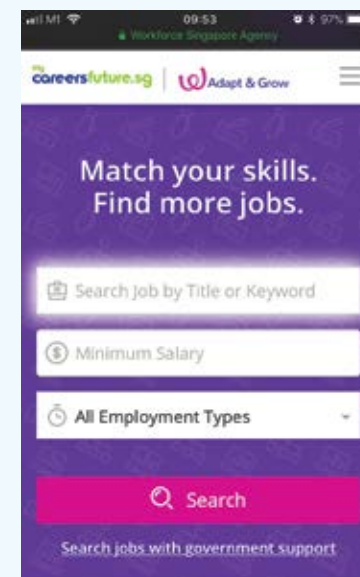

Built for Singaporeans and PRs, MyCareersFuture.sg, a jobs portal under Workforce Singapore (WSG), provides a smarter search service for jobseekers. By using AI to power skills-to-job matching, it identifies applicants' skills to recommend highly relevant career opportunities. No matter your career experience is, MyCareersFuture.sg can recommend the most exciting opportunities for your next move in 3 ways.

1. Find jobs with government support

MyCareersFuture.sg is the first portal that helps you find jobs with government support under Adapt & Grow. Simply check the box to view all available jobs in your search.

One such programme is WSG's Career Support Programme (CSP). If you are unemployed and over 40 years old, landing a job with a competitive salary could be a challenge. CSP encourages employers to hire Singapore Citizen PMETs, including those 40 years and older, who are actively searching for jobs but have been unemployed for six months or more.

Additionally, if you're interested in a career switch, the Professional Conversion Programme can help to reskill your competencies to take on new jobs. Under MyCareersFuture.sg, these jobs will be highlighted in the search results so that you know the additional support you have.

2. Match your experience to your next career move

Built for Singaporeans and PRs, MyCareersFuture.sg allows you to search for jobs based on your skills or discover suitable positions that you may not have considered. Add the career skills you have and MyCareersFuture.sg is able to show a percentage score of the skills match between a jobseeker and a job. It also shows adjacent jobs that require similar skills that you may not have considered.

3. Search for Suitable Jobs based on Location

Need to find a part-time job near to your home so that you can attend to your family commitments? Search for jobs based on the location – North, South, East, West, Central or Islandwide – to improve your job match results.

KEEP COMMON AREA CLEAN

As part of our ongoing effort to upkeep the cleanliness and safety of our estate, the Town Council is carrying out an exercise to clear unauthorised items (including abandoned and unserviceable bicycles) placed at common areas. Please do not place your bulky items and / or refuse along the common corridors. Let's play a part in keeping the common area clear and safe.

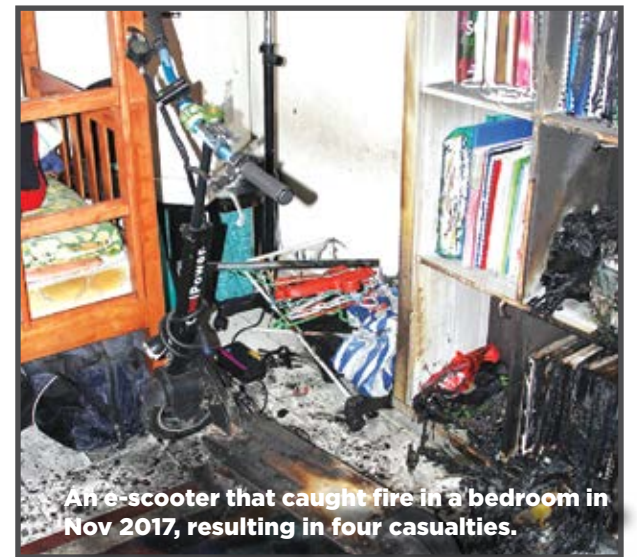

Please visit www.scdf.gov.sg for more information.

Fire Safety Tips

for Users of Electronic Devices & Personal Mobility Devices (PMDs)

Avoid overcharging the batteries, especially leaving it to charge overnight.

When charging such batteries, place them on hard flat surfaces to allow optimal dissipation of heat.

Examine for any damage or deformities such as bloated, corroded batteries or powdery batteries.

Do not place the battery being charged, and the PMD, near combustible materials or along an escape path.

Being equipped with basic life-saving skills was what drew residents in Siglap to attend the CPR & AED Workshop on 4 November 2018. The workshop taught participants the basic life-saving procedures and protocols to render assistance to someone in distress during an emergency. This also included basic knowledge and skills to perform cardio pulmonary resuscitation and learn how to use the AED machine.
